It's not how smart you are, but how you are smart. The validated **Emotional IntelligenceView360** measures 17 critical competencies helping you to recognise, understand and manage your behaviour and emotions effectively.

EMOTIONAL INTELLIGENCE AND EFFECTIVENESS

Emotional Intelligence, the ability to recognise, understand and manage your emotions and behaviour effectively, may play a far more important role in career success and job performance than “general intelligence” or IQ. Studies suggest that:

- Highly conscientious employees who lack social and emotional intelligence perform more poorly than those high in both conscientiousness and emotional intelligence;
- On average, strengths in purely cognitive capacities are approximately 27% more frequent in high performers than in the average performers, whereas strengths in social and emotional competencies are 53% more frequent;
- The highest performing managers and leaders have significantly more “emotional competence” than other managers;
- Poor social and emotional intelligence are strong predictors of executive and management “derailment” and failure in a person’s career.

APPLICATIONS

Emotional IntelligenceView360 is a comprehensive tool for rigorous, in-depth reporting of strengths and developmental needs on critical social, interpersonal and communication competencies.

Emotional IntelligenceView360 is ideal for use in executive coaching, senior management/executive development programmes, supervisory and management training, and developmental programmes for employees at every level of the organisation.

As an executive coach and consultant, I use Emotional IntelligenceView360 with clients from a variety of industries. It's my choice instrument when transforming managers to leaders. Emotional IntelligenceView360 provides in-depth and accurate insight upon which I can set score.”

WHY YOU SHOULDN'T BUY A STAND-ALONE 360

The ultimate objective of most 360-degree feedback programmes is to successfully change behaviour leading to increased effectiveness. Achieving this objective requires three conditions: enlightenment, encouragement and enablement. A 360-degree feedback assessment provides insight and enlightenment. But, without the other two, you won't demonstrate sustained and successful behaviour change.

The Three Necessary Conditions for Initiating and Sustaining Successful Behavioural Change

This is why we developed momentor. An online goal setting and learning transfer system that provides the missing elements – a platform for guided goal setting, on-going reminders about progress, competency-based resource library, and an evaluation of effectiveness and progress. It has proven to increase success of behaviour change programmes by up to 150%.

momentor is available with any ViewSuite or Envisia Learning assessment – including those that are custom designed. Before you buy any 360-degree assessment, be sure to learn more about how momentor translates insight into increased effectiveness and greater ROI for your programme.
