WHY YOU SHOULDN'T BUY A STAND-ALONE 360

The ultimate objective of most 360-degree feedback programmes is to successfully change behaviour leading to increased effectiveness. Achieving this objective requires three conditions: enlightenment, encouragement and enablement. A 360-degree feedback assessment provides insight and enlightenment. But, without the other two, you won't demonstrate sustained and successful behaviour change.

The Three Necessary Conditions for Initiating and Sustaining Successful Behavioural Change

This is why we developed momentor. An online goal setting and learning transfer system that provides the missing elements – a platform for guided goal setting, on-going reminders about progress, competency-based resource library, and an evaluation of effectiveness and progress. It has proven to increase success of behaviour change programmes by up to 150%.

momentor is available with any ViewSuite or Envisia Learning assessment – including those that are custom designed. Before you buy any 360-degree assessment, be sure to learn more about how momentor translates insight into increased effectiveness and greater ROI for your programme.
