**LeaderView360** provides a concise and brief assessment focusing exclusively on critical leadership behaviors required for competitive performance. Ideal for leadership development training programs, **LeaderView360** also supports the developmental planning of corporate performance evaluation systems.

“I've been using LeaderView360 for over 12 years as part of our leadership development. This particular assessment gives a good range of feedback on 7 leadership competencies and has provided each of my participants an understanding of where work colleagues see them, in relation to areas they are effective in, and those that could be developed.

The summary graphs are easy to understand and the depth of analysis provides lots of useful data. The online tool is easy to use and the team at Envisia Learning provide an outstanding service and answer queries very quickly. I would not hesitate to recommend them.”

WHY YOU SHOULDN’T BUY A STAND-ALONE 360

The ultimate objective of most 360-degree feedback programs is to successfully change behavior leading to increased effectiveness. Achieving this objective requires three conditions: enlightenment, encouragement and enablement. A 360-degree feedback assessment provides insight and enlightenment. But, without the other two, you won’t demonstrate sustained and successful behavior change.

This is why we developed momentor. An online goal setting and learning transfer system that provides the missing elements – a platform for guided goal setting, on-going reminders about progress, competency-based resource library, and an evaluation of effectiveness and progress. It has proven to increase success of behavior change programs by up to 150%.

momentor is available with any ViewSuite or Envisia Learning assessment – including those that are custom designed. Before you buy any 360-degree assessment, be sure to learn more about how momentor translates insight into increased effectiveness and greater ROI for your program.
